

Evening All,

Appreciate your continued support and advocacy of our school community, our families, and staff during this rapidly changing time, where all adapt and move in response to the now classified Coronavirus pandemic.

A few updates as they have been shared with me:

1. Based on recommendations from partnering health officials, precautionary measures around social gatherings have been implemented by LAUSD, hence the postponement of our scheduled US-Celebration for the close of the month. We will look to reschedule once this social gathering ban has been lifted.
2. Increased cleaning, hand washing, sanitation efforts and the like have been in effect on campus...sincere thanks to Mr. Williams, Mr. Gamble & all supporting our grounds team to keep us clean and sanitized.
3. In the event of school closure in the interest of safety and wellness, iPads will be sent home in the coming days to help support continuity of learning at home. They should travel to/from school to home as would a backpack, lunch bag, etc... in other words, daily.
4. To that end, in the event of school closure, scholars can access the same online learning tools that they access at school. Teachers have also been asked to share with families via their online communication tools (Class Dojo, SeeSaw, etc.) additional activities/tasks that connect to trimester three unit studies to keep scholars engaged. Additional websites such as PBS Learning Media: <https://ca.pbslearningmedia.org/> and Khan Academy: www.khanacademy.org are additional examples of online tools that scholars can access.
5. Local television is another resource to support continuity of learning should schools close → KCET will offer programming for high school, KLCS will offer content for grades 3-8 while PBS SoCal KOCE will offer programming for grades PREK-2.
6. For families who have yet to do so, please sign onto LAUSD's Parent Portal as a space for LAUSD updates and additional learning content options. If your PIN is needed for registering, please contact the main office or our Parent Center.
7. LAUSD is developing plans to still continue feeding our scholars...stay tuned for updates there.
8. Via this platform as well as via school texts, I'll keep you informed as news and updates come my way.

At present, there are still no known cases within LAUSD schools. All of the above actions are being taken as safety/precautionary measures. I'll continue to be in touch with updates.

Claiming peace & wellness,
Dr. Davis
